

## Add New Email Account

Please login to your wemail control panel.  
(<https://mail.wemail.hk:2222>)

Please click on "POP3 Email Account"

-> Click 'Create mail account'

Input username (i.e. email address) -> Enter Password -> Re-Enter Password -> Email Quota (Meg) (by default 1024 MBytes, i.e. 1 GB), To set as unlimited, please input zero.

Email quota is useful for controlling the maximum space for each email account. All email accounts usage should be less than your hosting account space.

A screenshot of the 'Create mail account' form. It has a title bar 'Create mail account'. The form contains four input fields: 'Username:' with a text box and '@wemailedemo.com' suffix, 'Enter Password:', 'Re-Enter Password:', and 'Email Quota (Meg):' with a text box containing '1024'. A 'Create' button is at the bottom right.

Please note your password should be at least in 8 characters, including letters and numbers.
