Your Email Hosting Account are ready as below –

Email Domain : wemaildemo.com
Email Control Panel : https://mail.wemail.hk:2222
Control Panel Username : wemailde10
Control Panel Default Password : ~~password~~
Service Expiry Date : 2014-02-26

Automatic Configuration : If customer uses –
Outlook 2007 (or above), or Thunderbird 3.1 (or above),
via Automatic Configuration, it will be set as
receive email via IMAP SSL, and send email via SMTP TLS

If customer uses other mail program(s) or mobile device(s),
e.g. iPhone, Android, Mac, Windows Live Mail, Outlook Express, etc
Please refer to the following manual setting.

Email Retrieval - IMAP : IMAP Server: mail.wemail.hk
Username: email address (e.g. info@wemaildemo.com)
Password: email password
SSL Port: 993 (or non-SSL port: 143)

When using IMAP, inbox emails are stored on server directly
(Suitable for multiple devices, e.g. desktop + mobile access)

(or) Email Retrieval POP3 : POP3 Server: mail.wemail.hk
Username: email address (e.g. info@wemaildemo.com)
Password: email password
SSL Port: 995 (or non-SSL port: 110)

When using POP3, by default, emails are downloaded to your desktop,
and not stored on the server. (It does not consume your server disk space quota)
